

Our Curriculum

At Al Islamia Preschool we follow the Early Years Foundation Stage (Development Matters) as guidance on supporting your child's individual learning and development.

The aim of our curriculum is to equip children with the skills and knowledge they need to explore and understand the world around them. We believe that children grow and develop when they have access to a well thought out learning and environment and engaged adults.

The teaching and learning of new skills and knowledge are delivered through both adult and child led opportunities both indoors and outdoors.

We focus on the importance of knowledge and skills that will support children in every way possible so that they can make the most of opportunities and fulfil their potential along with promoting their independence.

There are seven areas of learning and development within the Early Years curriculum.

Prime Areas of Learning

- Personal, Social and emotional development
- Communication and Language development
- Physical development

Specific areas of learning

- Literacy
- Mathematics
- Understanding the world
- Expressive Arts and design

How we deliver the curriculum to your children...

- We upload observations to you. These are a mixture of group and individual updates of what your child has been doing.
- With regards to monitoring your child's development through detailed observations this is done as follows, we have certain check points in place which enables us to look closely at a child's learning and development, this helps us flag any concerns and put strategies in place where needed.
- We complete the 2 year progress check. This is a statutory progress check to be completed at the age of two.
- When your child moves from one room to another, we complete a transition document in conjunction with you to allow fully up to date information about your child to pass between key people.
- When your child goes to school, we produce transition documents to support this.
